Student Evaluation of Classroom Accommodations
(This form should be matched with teacher evaluation forms and result in a discussion with the student and teachers about how accommodations use might be changed or improved.)

Teacher name: Mr. Maxwell
Grade: 5th

Subject: Science
Date: Nov 10

I, Allison, have been using accommodations in your classroom. Here is my rating of the effectiveness of these accommodations and comments about what I think might improve effectiveness.
(1 = not effective, 2 = somewhat effective, 3 = very effective)

1. I took my science test 1 2 3
   in Mrs. Farrell-Lewis's room
   I think the effectiveness of this accommodation could be improved by...
   taking all my tests in her room

2. Mrs. Farrell-Lewis let me 1 2 3
   take breaks during my test
   I think the effectiveness of this accommodation could be improved by...

3. She read the test questions to me 1 2 3
   I think the effectiveness of this accommodation could be improved by...
   Mr. Maxwell could read some questions to me on other tests.

Other accommodations that might work for me include...

I would like to do this for my social studies test, too.
