EIGHT ESSENTIAL COMPONENTS OF EXPLICIT MODELING

1. Concept/skill or problem solving strategy is broken down into its critical features/elements.

2. Teacher clearly describes concept/skill or problem solving strategy.

3. Teacher clearly models concept/skill or problem solving strategy.

4. Multi-sensory instruction (visual, auditory, tactile, kinesthetic)

5. Teacher thinks aloud as she/he models.

6. Teacher models examples and non-examples.

7. Cueing

8. High levels of teacher-student interaction
